Welcome to the Bournemouth Balloon

The Victorians pioneered tethered balloon flights and they became very popular in London and Paris from the 1860's. Today the Bournemouth Balloon, a helium filled balloon, uses all the latest technology to provide a comfortable and totally safe, yet truly exciting "high-flying" experience.

The Bournemouth Balloon lifts up to 28 passengers at a time to approximately 500 feet (150 metres) above Bournemouth. Giving panoramic views of the beautiful coastline from Poole Harbour to the Isle of Wight, and right into the New Forest to the north. On a clear day you can see over 25 miles (40km) in every direction.
